

MYOTONIC GOAT REVIEW

A PUBLICATION OF THE MYOTONIC GOAT REGISTRY

Fall/Winter 2021

Volume 13 Issue 3

Notes from the Pasture

The time since our last newsletter sure passed quickly; fall was busy here with our fall kidding, fall harvest and our two oldest children starting school for the first time. Time slipped away from me in getting a fall newsletter published!

This issue of the newsletter is going to be a brief issue, bringing everyone up to speed on the MGR shows that happened since our Summer issue. We will also meet two MGR Youth Breeders who are very near and dear to my heart, my daughter Grace and son Paxton. It makes me super excited to see their interest in the goats that I love so much and also very proud to see them in the show ring with Youth Showmanship.

I hope all of you had a blessed Thanksgiving and I also wish you a very Merry Christmas and a Happy New Year!

As always, if you have ideas and suggestions for future newsletters, send them my way!

Until next time, happy goating!
Drew DeRiemacker, editor
info@fieldcrestfarms.com

Millington, TN Show Results	12-14
MGR Fall Finale	15-17
MGR Nationals	18-21

From The MGR Office...

This year has been a big step for the Myotonic Goat Registry. We have had tremendous amounts of new breeders and myotonic goats that have been registered. As we moved through the year with shows across the country, our Fall Finale Show was the biggest show we have had to date. At the Fall Finale we had 225 goats who participated in the show. MGR has branched out to host the show in Eminence, Kentucky. This gave breeders in closer states the chance to participate in the show as we want all breeders to be successful in promoting the breed. This is a huge step in marketing as we had so many myotonic goats with fantastic characteristics. In the market, myotonics are meat goats. Myotonics have natural muscling and they do not need performance enhancements in the production of the animal. In our National Show, we had 24 goats who participated, and this includes does, platinum whethers, bucks and market whethers. or the National winner and reserve only, it was mandatory to receive blood testing results from Texas A&M and a veterinarian who is known as Dr. Sloan.

Testing the goats proves that zero performance enhancements are used to create a myotonic who is held to the standard of the breed character. In the 2021 National Show out of the 170 substances tested for, we were only going to disqualify against five of those substances. From this stand point, MGR will be monitoring the use of medications to make sure they are under FDA guidelines and or under veterinary care. MGR does not want the breed to become dependent on enhancements, and this weakens the breed character. Part of the breed characteristics are that myotonics are naturally heavy muscled without having the use of medication. We would also like to thank Kathy Jacobs, The Tumminello Family, and others who helped to make this show happen!

The 2022 judging school will be May 20th, and it is located at James E Ward Ag center in Lebanon, Tennessee. Judging school is open to all MGR registered breeders 21 years or older. For our youth who are still too young to be a judge, we are going to try to accommodate an internship. Places for this accommodation will be limited. Applications will be available in early February. For those that are interested in judging school that are still considered a youth, we highly encourage the breeder to come on May 20th.

Furthermore, MGR promotes breeder participation by having photo contests. This month's theme is "Seasons Bleating's." MGR wants to see how your myotonic goat celebrates the holiday season! This photo contest is located on the MGR Facebook website, and how many likes you receive on the photo will determine a winner. Also, the winner will receive a rosette and the rosettes are sent out by BrassRing Awards. We place the photos 1st through the 5th, and it is opened until December 15th, 2021, and you must be a MGR breeder to participate. This is the best time of the year.....KIDDING SEASON!! MGR is so excited to see new goat babies and it will keep us busy throughout the holiday season. Also, a reminder that MGR will be closed December 24th and December 25th.

We wish you success in your kidding season and Happy Holidays! Thank you for your continued support with MGR. ~Tara

MGR Youth Spotlight

Grace & Paxton DeRiemacker

6 year old Grace DeRiemacker is in kindergarten at Farmingdale Elementary. She has been a MGR Youth Breeder since 2015. Her favorite goat and the first one registered in her name is Fieldcrest Farms Rebel's Misfit who was born in 2016 and Grace helped bottle feed. Grace entered her first MGR Show at the 2017 Buck Creek Classic and exhibited Misfit in Pee Wee Showmanship. She enjoys helping with chores, showing Misfit, participating in gymnastics, and riding her horse Noah.

Paxton DeRiemacker is 4 years old and is in pre-K at St. Johns Lutheran Church. He has been a MGR Youth Breeder since 2017. In 2021 he participated in his first MGR Shows and showed Buck Creek Mystique and BDF Jade in Pee Wee Showmanship. He is excited to have his own wether to show next year! Paxton enjoys farming with his dad, helping feed and water the goats, playing with farm toys, watching bull riding and participating in mutton busting competitions.

Grace and Paxton are the children of Drew & Amy DeRiemacker of Pleasant Plains, Illinois.

Website: www.myotonicgoatregistry.net

The Myotonic Goat Registry was formed in 2005 as a sole ownership registry by Gene McNutt with input from an initial Board of Advisors made up of Dr. Phil Sponenberg and Barbara Roberts. The current Board of Advisors includes Dr. Phil Sponenberg, Cindy Bene, Eve Williams and Anna Garrett. The owner and Board of Advisors will make decisions concerning the registry and its procedures. This method of governance is meant to provide Myotonic Goat breeders with a registry that will not have frequent changes, and will have the longevity and consistency needed to successfully promote the Myotonic Goat breed, while at the same time make it responsive to the needs and wishes of the breeders. In 2009, Gene retired and the registry was sold to Tara Lawrence. As the Myotonic Goat Registry grows, additional Board of Advisor members may be added in order to more broadly represent the breeders. The owner, along with the Board of Advisors, will be responsible for providing for its own replacements and/or expansions.

The Myotonic Goat Registry takes into consideration all breeders, from pet owners to commercial meat growers. Regardless of which aspect of this breed appeals to you, the Myotonic Goat Registry is the place for all breeders to register their Myotonic Goats.

The Registry will help breeders promote their goats through sales, shows, and advertising, and will educate the public about the Myotonic Goat and its usefulness in a variety of settings.
